WHAT IS THIS PRODUCT?

Type: KraneShares Bloomberg China Bond Inclusion UCITS ETF (the "Fund") is a sub-fund of KraneShares ICAV, an Irish collective asset-management vehicle ("ICAV") constituted as an umbrella fund with segregated liability between sub-funds with registration number C181441 and authorised by the Central Bank of Ireland as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by law, so that an investor should have no claims over the assets of a sub-fund in which they do not own shares. The prospectus and periodic reports are prepared for KraneShares ICAV at umbrella level. Shares in the Fund may not be converted into shares in another sub-fund or from one share class in the Fund into another share class within the same sub-fund.

Objectives: The Fund seeks to deliver the performance of publicly traded fixed income securities issued by the Chinese government and government-related Chinese banks (the "Issuers").

Investment Policy: The Fund is passively managed and will seek to achieve its objective by passively tracking the performance of the USD unhedged version of the Bloomberg China Treasury and Policy Bank 9% Capped Index (the "Index") as closely as possible. Under normal circumstances, the Fund will invest at least 80% of its Net Asset Value in Index components. The Index is designed to measure the performance of the Issuers and seeks to track the performance of the Chinese onshore renminbi-denominated government and government-related bank fixed-income market. The Fund invests primarily in securities which are included in the Index. In order to track the performance of the Issuers, the Fund will build a representative portfolio by holding a selection of the securities of the Index that provides a return comparable to that of the Index. Consequently, the Fund may only hold a certain sub-set of the components of the Index. The Fund may be fully invested in sub-investment grade securities. The Fund does not intend to use financial derivative instruments. The Fund does not intend to engage in securities lending and does not intend to use repurchase agreements or total return swaps. The Fund may invest up to 10% of its net asset value in other regulated collective investment schemes, including other exchange traded funds. The Fund intends to make dividend payments on a semi-annual frequency which may be paid from either the Fund's net income and / or its capital. Save in exceptional circumstances, the Fund will only issue and redeem shares of the Fund ("Shares") to certain institutional investors. However, other investors may purchase or sell Shares through brokers on one or more stock exchanges. The Shares trade on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund.

Shareholders may redeem Shares on any Business Day (as defined in the fund supplement) and any other day at the Directors' discretion provided Shareholders are notified in advance. A list of dealing days for the Fund is published on <https://kraneshares.eu/>.

The Fund's base currency and the class currency of the Class is U.S. Dollars.

Depositary: SEI Investments - Depositary and Custodial Services (Ireland) Limited

Intended Retail Investors: Typical investors in the Fund are expected to be investors who are seeking exposure to the performance of the Issuers and are prepared to accept the risks associated with an investment of this type.

Term: This Fund has no maturity date. The Management Company is not entitled to terminate the Fund unilaterally. The Fund may be terminated unilaterally by KraneShares ICAV under certain circumstances as set out in the prospectus for KraneShares ICAV.

Copies of the prospectus, the latest annual and half-yearly reports and application forms may be obtained in English free of charge by contacting the Management Company at 35 Shelbourne Road, Ballsbridge, Dublin 4, Dublin, DO4 A4EO, Ireland, or via <https://www.waystone.com/funds/kraneshares-icav/>. Further information on the latest share price as well as further practical information on the Fund is published on <https://kraneshares.eu/kbndln/>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower Risk

Higher Risk

Typically lower rewards

Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return

you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Fund is subject to the following Risk Factors (without limitation):

- Concentration
- Country Concentration
- Index Tracking
- Liquidity
- Bond Connect
- Emerging Market including China
- ETF Specific
- Fixed Income
- Index Related

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF WAYSTONE MANAGEMENT COMPANY (IE) LIMITED IS UNABLE TO PAY OUT?

To protect you, the assets of the Fund are held with SEI Investments – Depositary and Custodial Services (Ireland) Limited (the “Depositary”). The Depositary is a separate regulated entity which performs safekeeping duties for the Fund’s assets. In the event of the insolvency of the Management Company, the Fund’s assets in the safekeeping of the Depositary will not be affected. Should the Fund default, the Depositary would preserve the Fund’s assets so that they could be liquidated and the proceeds distributed to the investors. In the worst case, however, you could lose your entire investment. You are not covered by a national compensation scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

Investment 10,000 USD Scenarios	If you exit after 1 year	If you exit after 5 years
Total Costs Annual Cost Impact (*)	42 USD 0.42%	223 USD 0.39% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.60% before costs and 3.21% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
