## WHAT IS THIS PRODUCT?

**Type:** KraneShares CSI China Internet UCITS ETF (the "Fund") is a sub-fund of KraneShares ICAV, an Irish collective asset-management vehicle ("ICAV") constituted as an umbrella fund with segregated liability between sub-funds with registration number C181441 and authorised by the Central Bank of Ireland as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by law, so that an investor should have no claims over the assets of a sub-fund in which they do not own shares. The prospectus and periodic reports are prepared for KraneShares ICAV at umbrella level. Shares in the Fund may not be converted into shares in another sub-fund or from one class in the Fund into another class within the same sub-fund.

**Objectives:** The Fund seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the investable universe of publicly traded China-based companies whose primary business or businesses are in the Internet and Internet-related sectors and which are listed outside of China ("China Internet Companies").

**Investment Policy:** The Fund is passively managed and will seek to achieve its objective by tracking the performance of the CSI Overseas China Internet Index (the "Index") as closely as possible. Under normal circumstances, the Fund invests at least 80% of its net assets in securities of China Internet Companies or in depositary receipts representing securities of the Index. Depositary receipts are securities issued by a financial institution which evidence ownership interests in a security or a pool of securities deposited with the financial institution. This means that the Fund seeks to track the performance of the Index by investing in companies included in the Index which are China Internet Companies while also seeking to minimise as far as possible the tracking error between the Fund's performance and that of its applicable Index. The Fund seeks to hold all the securities of the Index with the approximate weightings that they have in the Index. The Fund will seek to create a near mirror image of the Index but may, in certain circumstances, purchase securities that are not included in the Index. Although the Index is generally well diversified, because of the market it reflects, depending on market conditions, the Fund may, in order to track the Index accurately, hold positions in individual constituents of the Index up to 20% of the Fund's Net Asset Value. The Fund does not intend to use financial derivative instruments. The Fund may also invest up to 10% of its Net Asset Value in other regulated collective investment schemes, including other exchange traded funds.

The Fund may engage in securities lending but does not intend to use repurchase agreements or total return swaps.

The Fund's income will be reinvested and the Fund does not intend to declare dividends.

Shareholders (as defined in the Fund supplement) may redeem Shares on any Business Day (as defined in the Fund supplement) and any other day at the Directors' (as defined in the Fund supplement) discretion provided Shareholders are notified in advance. A list of dealing days for the Fund is published on <https://kraneshares.eu/>.

The Fund's base currency and the class currency of the Class is U.S. Dollars.

**Depositary:** SEI Investments – Depositary and Custodial Services (Ireland) Limited

**Intended Retail Investors:** Typical investors in the Fund are expected to be investors who are seeking exposure to the performance of China based companies whose primary business or businesses are in the internet and internet-related sectors and are prepared to accept the risks associated with an investment of this type and sector.

**Term:** The Fund has no maturity date. The Management Company is not entitled to terminate the Fund unilaterally. The Fund may be terminated unilaterally by KraneShares ICAV under certain circumstances as set out in the prospectus for KraneShares ICAV.

Copies of the prospectus, the latest annual and half-yearly reports and application forms may be obtained in English free of charge by contacting the Management Company at 35 Shelbourne Road, Ballsbridge, Dublin 4, Dublin, DO4 A4EO, Ireland, or via <https://www.waystone.com/funds/kraneshares-icav/>.

Further information on the latest share price as well as further practical information on the Fund is published on <https://kraneshares.eu/kwebin/>.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower Risk ← Higher Risk  
Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact our capacity to pay you.

**Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return**

**you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

The Fund is subject to the following Risk Factors (without limitation):

- Concentration
- Country Concentration
- Index Tracking
- Liquidity
- Emerging Market including China
- Equity
- Index Related
- Risk related to Stock Connect Programs

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

### PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years		1 year	5 years (Recommended Holding period)
Investment 10,000 USD			
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	320 USD	140 USD
	Average return each year	-96.78%	-57.53%
Unfavourable	What you might get back after costs	3,940 USD	4,010 USD

	Average return each year	5.63%	-7.23%
Favourable	What you might get back after costs	19,150 USD	28,150 USD
	Average return each year	91.52%	23.00%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 11-2017 and 11-2022.

Moderate: This type of scenario occurred for an investment between 07-2019 and 07-2024.

Favourable: This type of scenario occurred for an investment between 03-2016 and 03-2021.

### WHAT HAPPENS IF WAYSTONE MANAGEMENT COMPANY (IE) LIMITED IS UNABLE TO PAY OUT?

To protect you, the assets of the Fund are held with SEI Investments – Depository and Custodial Services (Ireland) Limited (the “Depository”). The Depository is a separate regulated entity which performs safekeeping duties for the Fund’s assets. In the event of the insolvency of the Management Company, the Fund’s assets in the safekeeping of the Depository will not be affected. Should the Fund default, the Depository would preserve the Fund’s assets so that they could be liquidated and the proceeds distributed to the investors. In the worst case, however, you could lose your entire investment. You are not covered by a national compensation scheme.

### WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

Investment 10,000 USD Scenarios	If you exit after 1 year	If you exit after 5 years
<b>Total Costs</b> <b>Annual Cost Impact (*)</b>	<b>96 USD</b> 1.0%	<b>363 USD</b> 1.0% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -6.27% before costs and -7.23% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
