Authorised in: This PRIIP is authorised in Ireland.

ISSUED ON 01/05/2026

## WHAT IS THIS PRODUCT?

**Type:** KraneShares ICBCUBS S&P China 500 UCITS ETF (the "Fund") is a sub-fund of KraneShares ICAV, an Irish collective asset-management vehicle ("ICAV") constituted as an umbrella fund with segregated liability between sub-funds with registration number C181441 and authorised by the Central Bank of Ireland as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by law, so that an investor should have no claims over the assets of a sub-fund in which they do not own shares. The prospectus and periodic reports are prepared for KraneShares ICAV at umbrella level. Conversion of Shares from one Share Class into another Share Class within the same Sub-Fund may be available to the Authorised Participants and to investors trading on the Secondary Market acting through such Authorised Participants (as further described in the prospectus).

**Objectives:** The Fund seeks to deliver the performance corresponding generally to the price and yield performance of the investable universe of the largest and most liquid publicly traded China companies.

**Investment Policy:** The Fund is passively managed and will seek to achieve its objective by tracking the performance of the S&P China 500 Index (the "Index") as closely as possible. Under normal circumstances, the Fund invests at least 80% of its net assets in securities or depositary receipts representing securities of the Index. The Index comprises 500 of the largest, most liquid China companies, weighted by float-adjusted market capitalisation, while approximating the sector composition of the broader Chinese equity market. The Fund seeks to hold all the securities of the Index with the approximate weightings that they have in the Index. The Fund seeks to create a near mirror image of the Index but may, in certain circumstances purchase securities that are not included in the Index. Although the Index is generally well diversified, because of the market it reflects, depending on market conditions, the Fund may, in order to track the Index accurately, hold positions in individual constituents of the Index up to 20% of the Fund's Net Asset Value. The Fund does not intend to use financial derivative instruments.

Save in exceptional circumstances, the Fund will only issue and redeem shares of the Fund ("Shares") to certain institutional investors. However, other investors may purchase or sell Shares through brokers on one or more stock exchanges. The Shares trade on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the Daily Net Asset value of the Fund.

The Fund may engage in securities lending but does not intend to use repurchase agreements or total return swaps. The Fund may invest up to 10% of its Net Asset Value in other regulated collective investment schemes, including other exchange traded funds.

Shareholders (as defined in the Fund supplement) may redeem Shares on any Business Day (as defined in the Fund supplement) and any other day at the Directors' (as defined in the Fund supplement) discretion provided Shareholders are notified in advance. A list of dealing days for the Fund is published on <https://kraneshares.eu/>.

The Fund intends to make dividend payments on an annual frequency which may be paid from either the Fund's net income and / or its capital. Please refer to <https://kraneshares.eu/> for further information on the dividend date.

The base currency of the Fund is US Dollars and the class currency of this Class is U.S. Dollars.

**Depositary:** SEI Investments - Depositary and Custodial Services (Ireland) Limited.

**Intended Retail Investors:** Typical investors in the Fund are expected to be investors who want to take long term exposure to the performance of large China based companies and are prepared to accept the risks associated with an investment of this type. The investor should be prepared to bear losses.

**Term:** The Fund has no maturity date. The Management Company is not entitled to terminate the Fund unilaterally. The Fund may be terminated unilaterally by KraneShares ICAV under certain circumstances as set out in the prospectus for KraneShares ICAV.

Copies of the prospectus, the latest annual and half-yearly reports and application forms may be obtained in English free of charge by contacting the Management Company at 35 Shelbourne Road, Ballsbridge, Dublin 4, Dublin, DO4 A4EO, Ireland, or via <https://www.waystone.com/funds/kraneshares-icav/>.

Further information on the latest share price as well as further practical information on the Fund is published on <https://kraneshares.eu/chinln>.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower Risk ← Higher Risk  
Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

**Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return**

**you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

The Fund is subject to the following Risk Factors (without limitation):

- Country Concentration
- Index Tracking
- Liquidity
- Emerging Market including China
- Equity
- Index Related
- Risk related to Stock Connect Programs

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

### PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years		1 year	5 years (Recommended Holding period)
Investment 10,000 USD			
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,350 USD	2,620 USD
	Average return each year	-66.45%	-23.48%
Unfavourable	What you might get back after costs	6,320 USD	7,790 USD
	Average return each year	-36.77%	-4.86%
Moderate	What you might get back after costs	10,410 USD	9,750 USD
	Average return each year	4.09%	-0.51%
Favourable	What you might get back after costs	15,560 USD	19,530 USD
	Average return each year	55.65%	14.32%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable: This type of scenario occurred for an investment between 04-2019 and 04-2024.

Moderate: This type of scenario occurred for an investment between 05-2019 and 05-2024.

Favourable: This type of scenario occurred for an investment between 05-2016 and 05-2021.

### WHAT HAPPENS IF WAYSTONE MANAGEMENT COMPANY (IE) LIMITED IS UNABLE TO PAY OUT?

To protect you, the assets of the Fund are held with SEI Investments – Depository and Custodial Services (Ireland) Limited (the “Depository”). The Depository is a separate regulated entity which performs safekeeping duties for the Fund’s assets. In the event of the insolvency of the Management Company, the Fund’s assets in the safekeeping of the Depository will not be affected. Should the Fund default, the Depository would preserve the Fund’s assets so that they could be liquidated and the proceeds distributed to the investors. In the worst case, however, you could lose your entire investment. You are not covered by a national compensation scheme.

### WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

Investment 10,000 USD Scenarios	If you exit after 1 year	If you exit after 5 years
<b>Total Costs</b> <b>Annual Cost Impact (*)</b>	<b>60 USD</b> 0.6%	<b>297 USD</b> 0.6% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.09% before costs and -0.51% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## COMPOSITION OF COSTS

		If you exit after 1 year
<b>One-Off Costs upon entry or exit</b>		
<b>Entry Costs</b>	There are no entry costs for this product.	0 USD
<b>Exit Costs</b>	There are no exit costs for this product.	0 USD
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	All the ordinary operating and administrative expenses of the Class shall be paid out of the Total Expense Ratio ("TER") of 0.55% the value of your investment per year. This is an estimate based on the costs of existing sub-funds of the ICAV over the last year.	55 USD
<b>Transaction costs</b>	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. The TER does not include transaction costs.	5 USD
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees</b>	There is no performance fee for this product.	0 USD

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

**Recommended holding period:** 5 years.

The Fund is designed to deliver capital appreciation over a long-term investment horizon with a medium-high level of risk. You can redeem your shares on any Business Day (as defined in the Fund supplement) with no penalty.

## HOW CAN I COMPLAIN?
